Italy ~ France ~ California ~ Washington ~ Australia ~ Germany ~ Spain

“In refining their senses and aesthetic judgement, blind tasters become much more conscious of the richness not only of wine but also of other potentially complex beverages such as tea, coffee, and spirits, and, by extension, the flavours in food, the scents in the air, and the play of light in the world. For life is consciousness, and consciousness is life.”

Neel Burton, The Concise Guide to Wine and Blind Tasting
